EXPERIENCE

2017

RIDIBOOKS

JUN 2015 - NOW

2015

UI DESIGNER

I am doing UI design of RIDIBOOKS for Android, iOS, Mac and Windows, E-ink reader made by RIDIBOOKS called PAPER. Here, I work as a customer specialist before becoming a designer. I gather sincere proposals and inconveniences that users feel, and try to make the viewer better by reviewing customer feedbacks and improving the problems.

Designer to code

Mar 2014 - Nov 2015

CO-FOUNDER, DESIGNER, MANAGER

I have created 'designer to code' which is a class that help designers understand the development process and build a portfolio website by themselves. I participated as an operator and took care of all the design, including branding, web design, and more.

QUOIN

Mar 2014 - Mar 2015

2014

2013

Bapul

Jan 2013 - Feb 2013

GUI DESIGNER

At UX agency QUOIN, I participated in various service design process for clients such as Samsung Electronics, Dole, Hyundai Motors. I also worked on the interaction and animations of the Monster Cracker, a game app created by QUOIN itself.

INTERN DESIGNER

During the third year winter vacation in college, I first started working in a field of UI/UX as an intern designer at Bapul which is creating an app that can ask questions about mathematics while creating a new educational culture.
